

## Study Day

# Inspiring Photography

**Benson Parish Hall, Sunnyside, Benson, Wallingford, OX10 6LZ  
Thursday, 17<sup>th</sup> May 2018**

**Our study day aims to inspire you to improve the composition of your photographs whether you are using the camera on your phone or a top of the range Digital Single Lens Reflex. The talks will focus on recognising the best photos to take and how to capture them, then what you can do with those photographs.**

**Nigel Spencer**

Nigel is a widely-travelled specialist wildlife photographer. This keen interest in nature grew from observing the birds in his garden along with the wildlife he encountered whilst mountain walking. His desire to capture these memories led to his photography of nature's magnificence including its plants, birds and animals in some of the most challenging of environments. These include

penguins in the Falkland Islands, polar bears in Churchill and the Northern Lights, high above the Arctic Circle.
